

Bucks County Gazette.

THURSDAY, AUGUST 26, 1875.

TERMS OF SUBSCRIPTION.

Single copies, 5 cents. One year, \$5.00.

A National Convention was held in Philadelphia, yesterday, 25th inst., of the friends of greenbacks and low interest, in opposition to the National Bank and specie resumption. We publish herewith their platform, adopted unanimously, after addresses favoring it, by Judge Kelley and others as an interesting chapter of the history of the times.

First. That the people owe to the government, at all times and in all emergencies, a loan of money equal to its needs at a rate of interest so low as to be the least possible burden, and to offer the least possible competition to private enterprise.

Second. That the government owe to the people an absolutely safe currency, and that it should not materially differ from that of other civilized nations.

Third. That the providing of a currency for the people is an attribute of sovereignty, and we demand that the government of the United States shall perform this duty in a manner as to furnish the public an amount of currency adequate to the business requirements of the country, and independent of the action of the banks or other private corporations.

Fourth. That we are neither inflationists nor deflationists, but the friends of a safe, sound, and reliable currency, and we propose to redeem the greenback circulation of the United States at the pleasure of the holders thereof, in gold or silver, at the rate of interest, convertible at the pleasure of the holders into greenbacks, thus retaining the original promise of the government, which it first issued greenbacks, to fund them into an interest-bearing bond.

Fifth. That we are in favor of the issue of United States currency or bonds, bearing interest not to exceed 3.50 per cent. per annum, to an amount equal to the whole government debt, said bonds or certificates being changeable and interchangeable with greenbacks at par on demand.

Sixth. That the legal money of the country should be endowed with the power to pay all debts, public and private, except that portion of the bonded indebtedness specially made payable in coin.

Seventh. That as the enactment of the last Congress providing for a resumption of specie payments in 1875 is impracticable and impossible of execution, and as the resumption of specie payments is a matter of public interest, we demand its immediate and unconditional repeal.

Eighth. That the plan of currency currently proposed by this convention would, in our opinion, tend to render our government and people independent financially of foreign interests or complications, and subject therefore to the disturbing control of influence of foreign nations.

Ninth. That we recommend the organization of greenback clubs in every State in the Union for the purpose of carrying out the principles and measures set forth in the foregoing resolutions.

Chas. Webb entered the water Tuesday, at Dover for his second attempt to cross the English Channel, and succeeded in accomplishing the feat without the assistance of any floating or life-saving apparatus. The following dispatch from Calcutta has just been received announcing his arrival on the other side of the Channel: "Chas. Webb arrived here at 11 o'clock this morning, in good health and spirits, although fatigued. The passage from Dover occupied 21 hours and 40 minutes. The distance between the two points is over twenty miles. This is the best service ever known, and throws Leander, Byron and Boynton in the shade."

The second international champion swimming match between Cuyler of Glenora, Pa., and Johnson of England, took place Tuesday afternoon from the Lancaster to Gloucester, Pa. At 3:15 P. M. they took the water together, both taking the Pennsylvania side, Cuyler being nearest the shore. After he had passed over about six miles Cuyler's trainer, seeing that he looked bad, took him out of the water. Johnson was a mile in advance. Cuyler showed every indication of being chilled and unable to go much further. Johnson continued swimming until he reached the end of the course.

On the 26th of this month the first experiment of shipping peaches to Europe is to come off. 5,000 crates will be part of the freight of the steamer from Philadelphia of that date. It is thought that the fruit can be kept in marketable condition by keeping the temperature of the room in which it will be packed at a low degree. This is to be done by fans and is said to be feasible. We shall look with interest to the result of this novel experiment, and if it is successful peach growing may become a more important matter to fruit growers.

The Evangelical Convention at Sea Grove met yesterday. Over five hundred persons were present, including one hundred and three delegates from Presbyterian, Methodist Episcopal, Lutheran, Reformed, Baptist, Protestant Episcopal German Reformed and Reformed Episcopal Churches, Pennsylvania, Maryland, New York, New Jersey and Virginia. At a meeting of the Sea Grove Association a lot of ground 100 feet square was given for the erection of an Episcopal Church for services during the summer.

A tree of the magnificent American Donalson was found at Fort Hope, Mich., Tuesday morning, in the shape of a bottle containing the following, in well preserved writing: "Over Lake Michigan at 8 P. M. of the evening of Saturday, about thirty miles from Chicago, about 3,000 feet high; a gale coming from the north-east; balloon getting out of order; gas escaping fast; can't remain up much longer; will surely land in the lake; fearful storm." DONALDSON.

The accounts from the Western railroads are that freights are increasing, and with the latter there is no doubt that the railroads will in the next six months do a larger business than for a long time past. Good judges are of the opinion that the point of extreme depression in railroad property has been passed.

The commissioners appointed to wind up the affairs of the Freedmen's Savings Bank report that there is now on hand in cash \$460,000, and it is expected that this amount will be increased to \$610,000 by the 1st of September, when a dividend of 20 per cent. will be declared. The total number of depositors in the bank and its branches is 67,000.

Theodore Tilton is visiting his parents in Keyport, N. J., and his daughters Florence and Alice are with him. He has suspended work on his new book and has been preparing his new lecture on the "Problem of Life." Every night is engaged from Sept. 20 through the season.

Duncan, Sherman & Co. propose to pay their creditors 25 per cent. in installments running from November of this year to November 1877, with interest, and dispose of the assets under supervision of a committee. That a creditor will ever realize more is pretty certain.

The Wyoming Grove Camp Meeting, near Wilkesbarre, was attended on Sunday by more than 20,000 people. Dr. Nelson, of the New York Methodist Book Concern, and W. H. Olin, of Wilkesbarre, preached.

Goldsmith Maid beat Lulu at Utica on Saturday, the latter having been very badly breaking all through the race. She was distanced on the third heat.

Telegrams from the West tell of heavy rains on Monday night throughout Iowa, Illinois, Minnesota and Wisconsin. The corn and potatoes are said to be badly injured.

THE TREASURY OF RESUMPTION.

Our Paralyzed Industries.

Now is the Time

For Families to purchase their monthly stock of TEAS, COFFEES AND GROCERIES.

They will save 20 per cent. by ordering either personally, by letter, or postal card.
